- **Programming:** Java, C++
- **Web Technologies**: HTML, CSS, JavaScript, Angular, React
- **Frameworks & Libraries:** Spring, Spring Boot, Hibernate, JDBC
- **Build & Dependency Management:** Maven
- **Tools & Platforms:** Docker, AWS
- **Databases**: MySQL
- **Version Control:** Git, GitHub

Experience

Software Developer Intern | Java Full Stack | XForm Technologies Pvt. Ltd., Pune.

- Assisted in web application development using Java, Spring Boot, and Angular.
- Worked on RESTful APIs, bug fixing, performance optimization, and MySQL database operations.
- Deployed modules in Docker and tested containerized services.
- Participated in Agile development, version control with Git, and security implementation with JWT.

Software Developer Intern | PHP Full Stack | IBase Technologies.

- Developed backend modules using PHP and MySQL for dynamic web applications.
- Handled form validation, CRUD operations, and integrated server-side logic with frontend.

Projects

EduMaster – Smart Online Exam Platform.
Tech Stack: Java**,** Angular, Spring Boot, Spring Data JPA, MySQL, REST API

- Designed and developed a smart quiz system with secure role-based authentication and automated result processing.
- Implemented PDF certificate generation**,** email notifications, and CSV/PDF export features for streamlined reporting.
- Built admin dashboards with analytics, feedback, and notification management, improving efficiency for educators and recruiters.

StyleSphere - E-Commerce Website.
Tech Stack: Java**,** Angular, Spring Boot, Spring Data JPA, MySQL, REST API, Bootstrap

- Developed a fully functional clothing e-commerce platform with product listing, cart, checkout, and admin panel features.
- Designed user-friendly interfaces and implemented secure login with role-based access for customers and admins.
- Developed and integrated backend APIs for managing products, orders, inventory, and user operations seamlessly.

Online Salon Appointment Booking System.
Tech Stack: Angular, Spring Boot, Spring Data JPA, MySQL, Bootstrap, Java Mail Sender API, REST APIs .

- Developed a complete salon booking platform featuring services listing, real-time scheduling, and email notifications.
- Developed a responsive user interface enabling clients to view availability, book appointments, and manage reservations.
- Built backend services to handle appointments, send notifications, and implement secure authentication and authorization for clients and admins.
- Designed admin dashboard for stylists and managers to manage schedules, view bookings, and control service offerings.

JobNest - Full-Stack Job Portal Application.
Tech Stack: Java, Angular, Spring Boot, Spring Data JPA, MySQL, REST APIs, Bootstrap, JWT Authentication.

- Built a job portal platform enabling users to register, search and apply for jobs while allowing employers to post and manage job listings.
- Developed user and admin dashboards for job tracking, profile management, and application workflows with real-time updates.
- Designed and implemented backend APIs for job postings, user authentication, and role-based access for job seekers and recruiter.

Certifications

- DSA (Data Structures & Algorithms) - The Code Culture, Pune
- C and C++ Programming - The Code Culture, Pune
- Core Java – Udemy
- Master Java, Spring 6 & Spring Boot 3, Spring JPA, Security, Spring AI, Docker & Microservices - Udemy

Extracurricular

- Participated in college sports, leading practices and fostering team coordination and discipline.
- Organized and coordinated college cultural fests, managed logistics, scheduling, and team operations.
- Elected Student Representative for two consecutive terms, led student initiatives and collaborated with faculty on institutional development.
